SCHEDULE OF ACCREDITATION – HEALTH FACILITY CERTIFICATION

	Management system scope	Technical cluster	Level of certification	Description of activity
1	Safe care standards	Health Facility Certification	Level 1	The quality of the services provided is likely to fluctuate and there is a risk of unsafe situations.
			Level 2	The facility is starting to put processes in place for high risk procedures however the quality of services provided is still likely to fluctuate and the risk of unsafe situations remains high.
			Level 3	The facility is starting to operate according to structured processes and procedures, however not all high risk procedures are controlled, thus the quality of services provided can still fluctuate.
			Level 4	The facility is accustomed to operate according to standardized procedures, and has started to monitor the implementation of their procedures and guidelines. Most of high risk procedures are monitored and controlled and the quality of services provided is less likely to fluctuate.
			Level 5	The facility is regularly monitoring the implementation of treatment guidelines and standard operating procedures through internal audits.
